

IN THE CLAIMS

Please amend the claims as follows:

Claims 1-6 (Canceled).

Claim 7 (New): A basic medicine-containing preparation comprising a basic physiologically active substance, one or more enteric polymers and one or more electrolytes.

Claim 8 (New): The basic medicine-containing preparation according to claim 7, wherein the one or more electrolytes selected from the group consisting of an alkali metal salt, an alkaline earth metal salt, and mixtures thereof.

Claim 9 (New): The basic medicine-containing preparation according to claim 7, wherein the physiologically active substance is tamsulosin hydrochloride.

Claim 10 (New): The basic medicine-containing preparation according to claim 8, wherein the physiologically active substance is tamsulosin hydrochloride.

Claim 11 (New): The basic medicine-containing preparation according to claim 7, consisting of multilayers containing at least a central layer, an inside layer and an outside layer, wherein:

the inside layer comprises the physiologically active substance and the enteric polymer;

the outside layer comprises the enteric polymer as main component; and

the one or more electrolytes are comprises in at least any one of the layers.

Claim 12 (New): The basic medicine-containing preparation according to claim 8, consisting of multilayers containing at least a central layer, an inside layer and an outside layer, wherein:

the inside layer comprises the physiologically active substance and the enteric polymer;

the outside layer comprises the enteric polymer as main component; and

the one or more electrolytes are comprises in at least any one of the layers.

Claim 13 (New): The basic medicine-containing preparation according to claim 9, consisting of multilayers containing at least a central layer, an inside layer and an outside layer, wherein:

the inside layer comprises the physiologically active substance and the enteric polymer;

the outside layer comprises the enteric polymer as main component; and

the one or more electrolytes are comprises in at least any one of the layers.

Claim 14 (New): The basic medicine-containing preparation according to claim 10, consisting of multilayers containing at least a central layer, an inside layer and an outside layer, wherein:

the inside layer comprises the physiologically active substance and the enteric polymer;

the outside layer comprises the enteric polymer as main component; and

the one or more electrolytes are comprises in at least any one of the layers.

Claim 15 (New): The basic medicine-containing preparation according to claim 11, wherein the inside layer further comprises a sparingly-soluble binder.

Claim 16 (New): The basic medicine-containing preparation according to claim 12, wherein the inside layer further comprises a sparingly-soluble binder.

Claim 17 (New): The basic medicine-containing preparation according to claim 13, wherein the inside layer further comprises a sparingly-soluble binder.

Claim 18 (New): The basic medicine-containing preparation according to claim 14, wherein the inside layer further comprises a sparingly-soluble binder.

Claim 19 (New): A capsular preparation, wherein the basic medicine- containing preparation according to claim 7 is charged into a capsule.

Claim 20 (New): A capsular preparation, wherein the basic medicine- containing preparation according to claim 14 is charged into a capsule.

Claim 21 (New): A capsular preparation, wherein the basic medicine- containing preparation according to claim 18 is charged into a capsule.
